

Adventure Game Website - Milestone 1

Description:

My project is a website where you can play a build-your-own-adventure game. The website will be encrypted, have a login scheme, and will have two factor authentication.

Status of the Project:

The current state of my project is that the game is playable. I still need to turn the files into a website and incorporate a login system, encryption, and the two factor authentication.

Milestones to Accomplish:

- Milestone 2
 - Implementing user authentication and accounts
 - Implementing 2FA
 - Implementing Encryption
- Milestone 3
 - Final Testing

Timeline for Remaining Milestones

- Milestone 2: 4 weeks
- Milestone 3: 2 weeks
